

Economy

Quality and affordability, our Economy cover features a 3" to 2" tapered 1 lb. density EPS foam core, sealed in a 4 mil. vapor wrap. The Economy cover comes with two locking buckles and four handles. The Economy cover is available in Russet (Brown). The foam core is braced with a galvanized steel c-channel at the hinge for added strength. A 3" skirt is standard. The Economy cover features a one-year limited warranty.

Standard

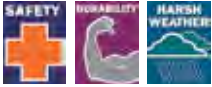

Not your everyday spa cover, our Standard cover features a 4" to 2" tapered 2 lb. density foam core, sealed in a 4 mil. vapor wrap. The Standard cover comes with four locking buckles and four handles. The Standard cover is available in fourteen different colors! The foam core is braced with a galvanized steel c-channel at the hinge for added strength. A 3" skirt is standard. The Standard cover features a two-year limited warranty. The Standard cover meets or exceeds all A.S.T.M. safety standards.

Deluxe

Added strength and durability make our Deluxe cover a great value. The Deluxe cover takes all of the features of the standard cover and adds a 6 mil. vapor wrap and fiberglass reinforced strapping on 1' centers. The Deluxe cover is available in your choice of fourteen colors! The Deluxe cover features a three-year warranty. The Deluxe cover meets or exceeds all A.S.T.M safety standards.

Ultra

As rough as it gets, our fiberglass reinforced plastic (FRP) cover is made for heavy snow loads or larger spas that need the added security of the strongest cover available. On the outside, the Ultra cover has all the great looks of all our spa covers. On the inside, the Ultra cover's 3" to 2" tapered foam inserts are sandwiched between layers of fiberglass reinforced plastic for unsurpassed strength. The Ultra cover features a five-year limited warranty. The Ultra cover meets or exceeds all A. S. T. M. safety standards.

Thermo-light

Every spa needs a cover to keep in the heat and keep debris out. For larger or free-form in-ground spas where regular foam spa covers can be too heavy or cannot be installed, the Custom Spa Cover Team brings you our Thermo-Light Floating Spa Cover. Thermo-Light covers feature a five-year limited warranty.

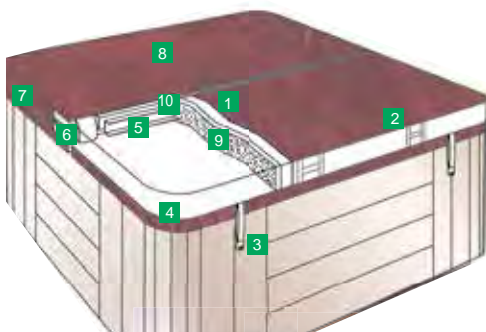

Note: Thermo-Light Floating Spa Covers are not designed to meet A.S.T.M. standards for safety covers.

Thermo-Light spa covers are designed to provide better heat retention and reduce the amount of debris entering your spa only. Thermo-Light spa covers are not designed to support weight.

**Thermo-Light cover measurements should be water's edge not cabinet or acrylic measurements.*

- Due to the added weight of the fiberglass reinforced plastic sheets on our Ultra foam, we do not put straps on Ultra covers over 96" because if incorrectly used as handles they will tear. For covers not receiving straps, you must order a hold-down kit in order to meet A.S.T.M. Safety Standards. Please specify what type of material (concrete, wood, etc.) the hold down straps will anchor into.
- Covers over 108" may require liability waivers.

Quality features built into every Custom Spa Cover

Heat sealed vapor wrap.

Integrated, reinforced handles.

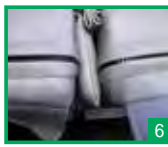

Hold-down straps with locking buckles.

Double skirt retains heat and protects acrylic spa lip from fading.

A super-strong 3" galvanized steel C-channel adds superior strength to the cover's center.

2 large heat seals lock in heat and lower operating costs.

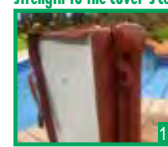

Heavy duty nylon zipper.

Highest quality marine grade vinyl with UV and weather resistant finish.

Strong tapered highly insulating EPS foam core.

Hinge Handles for easier removal.
